

"It ain't what you do, it's the way that you do it."

EXCEED SLE training, 27th June 2018.

"Loved it! Just loved it! All of it. I have the attention skills of a gnat, struggle to enjoy any courses and often come back felling like my time has been wasted... NOT THE CASE TODAY!! So engaging, so informative, really made me change my approach (FOR THE BETTER) to being an S.L.E. It is a long time since I have been on training that has inspired and motivated me."

"An excellent day – most helpful training I've ever had! It was really well thought-out with lots of activities to reflect upon our own areas of development of an S.L.E. It was great that time was actually allocated to try the activities properly as often this is overlooked on courses."

"I normally don't enjoy courses linked to leadership eg NPQH, as they are usually theoretical and detached from the realities of everyday school life. This course was inspiring, motivating and I could see its direct relevance to me and my role in school and not just as an S.L.E."

"Really open feel to the session which made me feel willing to be vulnerable and share. Music/slides were engaging, along with a really useful handout. Excellent subject knowledge coupled with a range of meaningful activities mean that I go away feeling much more equipped to support as an S.L.E. I particularly liked the coaching session."

"You've really helped me with my confidence and direction. I'm feeling much more empowered (as a new SLE) to be able to achieve what I need to do. You were pacey and encouraged quality reflection – something we don't often have opportunities for. Best training in years."

"Interactive and bespoke programme. Coaching session / feedback was greatly enjoyed and I gained a lot from this. Great reading material shared. Thank you Stuart for an amazing session."
